Our mission is to develop and produce quality quilting and sewing notions that allow any quilter or sewist to practice their art form with ease. We listen to your wants, desires, and suggestions to improve current products or develop new products that meet your needs.

Quilter's Rule® started in 1983 producing the quilting industry's first "fabric gripping" ruler. The Quilter's Rule® signature ruler was designed to be used for strip cutting with a rotary cutter. Quilter's Rule® has since designed many rulers with Fabric Gripping Action® technology and EZ2C™ Lines.

We're more than just rulers!

Quilter's Rule® manufactures a variety of products including:

- MegaMat® pinnable gridded mats.
- Large assortment of Machine Quilting Templates for use by short-arm, mid-arm, long-arm, and large-throated sit-down machines as well as home machines, both high and low shank.
- Templates and accessories to be used by home machine owners to complete their quilts themselves.
- The wonder cut ruler and a host of specialty rulers.

Patricia E. Simons, Director

MegaMats®

MegaMats® are made with one polymer, are less prone to warping, and can be rolled to transport or ship.

Pinnable Cutting Mats

This top of the line cutting mat is made of a special dense flexible plastic. The slip resistant translucent material is resilient, durable, resists warping, and withstands the repetitive use of a rotary cutter and/or art knife (mat knives are not recommended). Roll for travel or temporary storage, but for longer life, flat storage is best. The mats are marked with a 1" grid, ¼" hash marks, 45° angles, as well as inch ruler on all sides. Use with cloth, leather, film, vinyl, and paper. Use pins or tacks to lightly tack material to the mat.

Follow the simple instructions below to maximize the life of the pinnable MegaMat®:

- Always use a sharp blade. When pressed too hard with a dull blade, the mat will be damaged.
- Never push harder with a sharp rotary cutter than is necessary to cut the fabric.
- Cutting repeatedly on the same line will erode the mat on that line and cause it to bubble or warp. Move the cuts around.
- Keep the mat clean. Wash it occasionally with warm soapy water.
- The lines are silk screened with ink cured under UV light. If the lines flake off due to the tiny cuts, refresh them with a sharpie pen and a ruler.
- While the MegaMat® may ship rolled, it is best to store the mat flat.
- Do not expose the mat to direct sunlight for long periods or excessive heat sources.

Sizes to Fit Most Work Areas:

The larger sizes create a seamless surface that covers your total work area at an attractive price. MegaMat® Pro is the Godzilla of mats. This seamless surface covers a whopping 60" x 120" (5' x 10'). The 48" x 96" (4' x 8') mat is available in an extra thick version and able to withstand a high level of use with art knives.

Original Quilter's Rule® Rulers with Fabric Gripping Action®

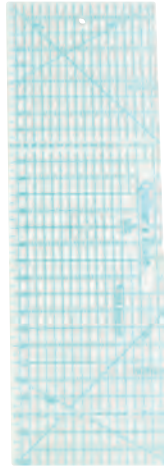

The original Quilter's Rule® Ruler (QR-1) was designed in 1983. Today you can get this uniquely made ruler in all shapes and sizes. These plastic injection molded rulers have clean, crisp, accurate lines. The molded lines keep fabric from slipping when marking your fabric and allow for fast, accurate rotary cutting without slipping! Markings available in original black or a contrasting teal. The contrasting teal really pops on dark fabric.

Mini Arc	5" x 2 1/2"	MQT-RMA	\$14.50	HMQT-RMA	\$12.00	QR-RMA	\$10.30

Designed by Ronda K. Beyer

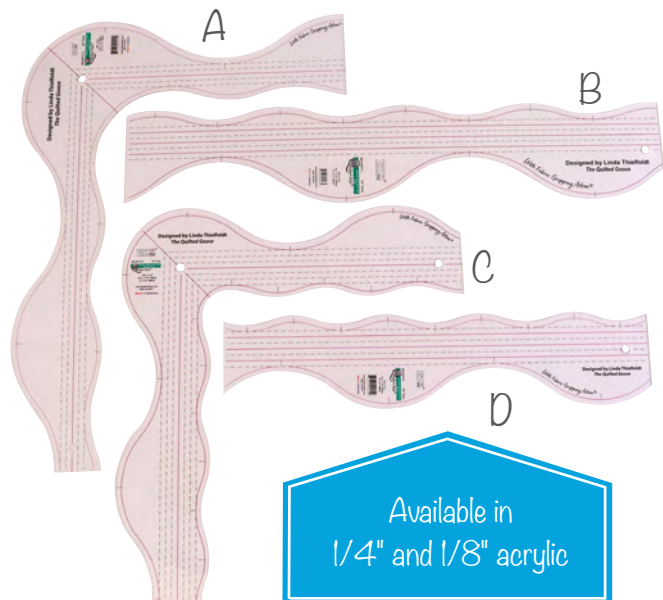

These rulers make curved crosshatching a breeze with NO marking. The 1/4" and 1/2" lines help to keep the crosshatching uniform. The Curved Crescent Moon can handle those larger areas and border designs. There are two sizes of the Double "S" Rulers.

Our Add-a-Table provides an extended flat support surface for Home /Domestic Machine Quilting projects. This is a perfect stable surface to use with templates or rulers while machine quilting.

Add-a-Table

- This Add-a-Table is a full 18" x 24" single piece of sturdy, 1/4" (6mm) clear acrylic, extended support surface.
- All exposed edges are fully routed, resulting in minimal drag. The smooth rounded edges protect your project.
- The ruler markings along the front edge measure a full 18" (46mm) long with both inches and metric reference points.
- All support feet are adjustable to provide a perfectly level work surface.
- Add-a-Table is also available with an opening that accommodates the **Bernina Stitch Regulator**. A connection cable is included. For installation instructions visit our YouTube video at <https://www.youtube.com/watch?v=uHjqgq8RtFY>

\$102.90

\$169.00

Add-a-Table is machine and model number specific. When ordering, specify the make, model, and manufacturer of your machine.
