# Product Catalog

*With 52 NEW Products!*

Our mission is to develop and produce quality products  
that allow ANY quilter or seamstress to practice their art with ease.

---

Quilter's Rule started in 1983 producing the quilting industry's first "fabric gripping" ruler. The Quilter's Rule signature ruler was designed to be used with a rotary cutter. Quilter's Rule has since designed many rulers.

**"We're more than just rulers!"**

In addition to our

- \***Fabric Gripping Rulers**, Quilter's Rule manufactures a variety of products.
- \***MegaMat Pinnable Gridded Mats** Sizes range from 5"x7" to our largest 60"x120"
- \***Largest assortment of Machine Quilting Templates** For use by short-arm, mid-arm, longarm, as well as large throated sit-down machines
- \***Wonder Cut Ruler** and a host of Specialty Rulers
- \***Design Tools**

Quilter's Rule attends quilting shows throughout the United States to help stay in touch with you. We listen to your wants, desires, and suggestions to improve or develop new products. Keep current with "what's new" and email specials by subscribing to our **Email List**.

# The Original Quilter's Rule Rulers!

*The original rulers with Fabric Gripping Action!*

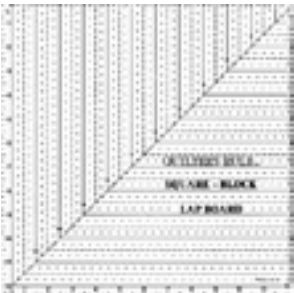

The original Quilter's Rule (QR-1) was designed in 1983. Today you can get this uniquely made ruler in all shapes and sizes as well as in two different line colors (black or teal). These plastic injection molded rulers have clean, crisp, accurate lines. The molded lines keep fabric from slipping, allowing for fast, accurate rotary cutting. There are 1/2" and 1/4" markings and the rectangular rulers have 30°, 45°, & 60° lines. The Seam Guide (QR-SG) includes both a 1/4" and 3/16" seam allowance better known as a scant 1/4".

### Quilt Pox Sign

SYMPTOMS- Continual complaint as to need for snuggling under a handmade quilt. Patient has blank expression, sometimes deaf to spouse and kids. Has no taste for bedspreads or electric blankets. Hangs out at "Quilting Bees". Mumbles to self "Log Cabin," "Double Wedding Ring," "Ohio Rose."

TREATMENT- Medication is useless. Disease is not fatal. Victim should attend as many Quilt Shows and Quilt Shops as possible.

Declare your passion proudly!

MegaMats are made in a variety of sizes: as small as 5”x7” to as large as 60”x120”. All sizes of MegaMats are available in our Pinnable Cutting Mat material.

**Pinnable Cutting Mats**

This top of the line cutting mat is made of special dense flexible plastic. The slip resistant translucent material is resilient, durable, resists warping, and can withstand the repetitive use of a rotary cutter and/or art knife. (Mat knives are not recommended.) Roll for travel or temporary storage, but for longer life, flat storage is best. The mats are marked with a 1” Grid, 1/4” hash marks, 45° angles, as well as inch ruler on all sides. Use with cloth, leather, film, vinyl, and paper. Use pins or tacks to lightly tack material to mat. With proper care our pinnable mats will last a long time. Contrary to popular belief there are no self-healing mats. Mats simply are not capable of healing themselves because they are manufactured from non-living materials. Some mats will appear to heal because the material does not separate when it is cut or a dense core holds the cutting surface together. Our mats appear to heal because the material does not separate when a small cut is made in the surface. Because our mats are made of one polymer they are less prone to warping and they can be rolled to transport or ship.

Following the simple instructions below will maximize the service of your pinnable MegaMat:

1. Always use a sharp blade. When you press too hard with a dull blade you damage your mat.
2. Never push harder with a sharp rotary cutter than is necessary to cut the fabric.
3. Cutting repeatedly on the same line will erode the mat on that line and cause it to bubble or warp. Move around with your cuts.
4. Keep your mat clean. Wash it occasionally with warm soapy water.
5. The lines are silk screened with ink cured under UV light. If your lines flake off due to the tiny cuts, you can put them back with a sharpie pen and a ruler.
6. While your MegaMat may have come to you rolled, it is best to store it flat.
7. Do not expose your mat to direct sunlight for long periods or excessive heat sources.

Sizes to Fit Most Work Areas:

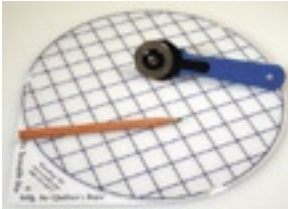

The larger sizes create a seamless surface that covers your total work area at an attractive price. There are a wide variety of sizes for various work services and/or for travel. The MegaMat Pros are the Godzilla of mats. This seamless surface covers a whopping 60” x 120” (5’x10’) and is available with or without a grid. The 48” x 96” (4’x8’) mat is available in an Extra Thick version, which is thicker and able to withstand a high level of use with art knives.

Squiggle Templates

The Squiggle Template is designed for use on a machine. The hills and valleys on this template are designed with the 1/2" foot in mind. This means from outside edge to outside edge, the foot measures 1/2". There are etched vertical and horizontal lines to help align the tool when creating your designs.

## Ronda's Rulers

Designed by Ronda Beyer

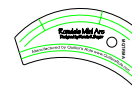

Ronda's Rulers make curved cross hatching a breeze with NO marking. The 1/4" and 1/2" etched lines help to keep the cross hatching uniform. The Mini Arc is easy to handle in those small areas; adding texture and movement to your design. The Curved Crescent Moon Ruler can handle those larger areas and border designs. There are also three sizes of the Double "S" Rulers; small, medium, and large.
